BAOZHU

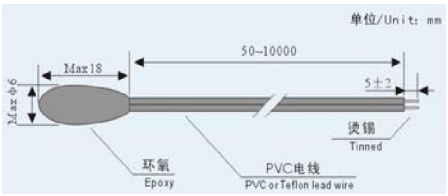

NTC温度型传感器系列

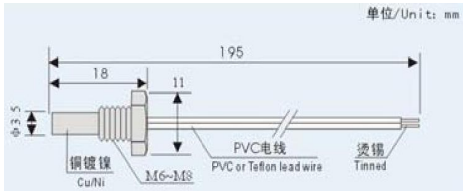

NTC temperature sensor series

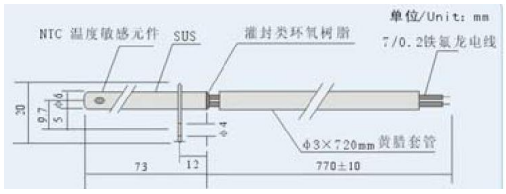

NTSE-1　　NTSS-2　　NTSA-1

■ Characteristics

1. High power, strong capacity of inhibiting surge
2. Dip into type/the liquid temperature measurement/good waterproof effect/elegant appearance
3. Convenient fixing/elegant appearance

■ Usages

4. 1. water heater/ pipe water temperature
5. 2. air conditioning/greenhouse
6. 3. desiccant

Coding system:

NT** — *

Model

Product line

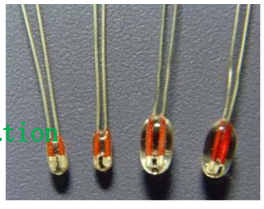

Boundary dimension:

Model	Dmax	Lemax	Lmin	Lmax
NTSE-1	6	18	25	5
Model	D	L	Dm	
NTSS-2	3.5	18	11	
Model	D	L	H	
NTSA-1	6	73	20	

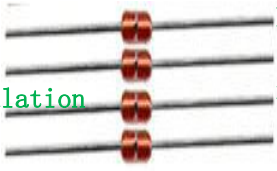

MFE Epoxy encapsulation type

MFG1 Glass encapsulation type

MFG2 Glass encapsulation type

MFF Thin film temperature measuring type

MFS Temperature measuring type

MF72 Power type

MFG3 Glass encapsulation type

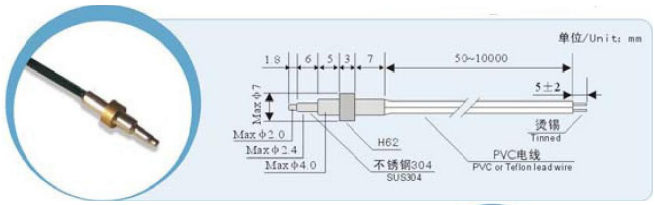

BAOZHU

NTC温度型传感器系列

NTC temperature sensor series

The bullet type

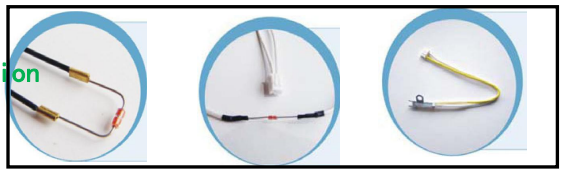

1. Characteristics	Dip into liquid temperature measurement/ external point sensitive /Fast response
2. Usages	power/motor/radiator
3. working temperature range	-30℃～ +105℃

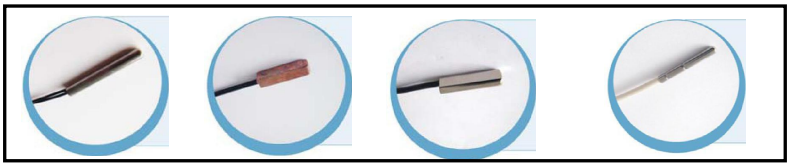

Epoxy coating injection molding type

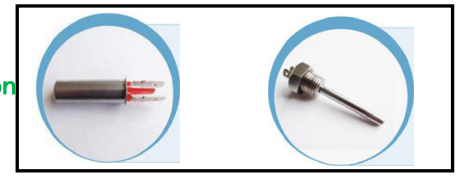

No encapsulation type

Straight pipe type

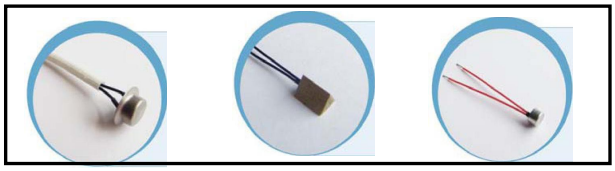

Insert Elicitation type

Pipe clamp type

Miniature probe type

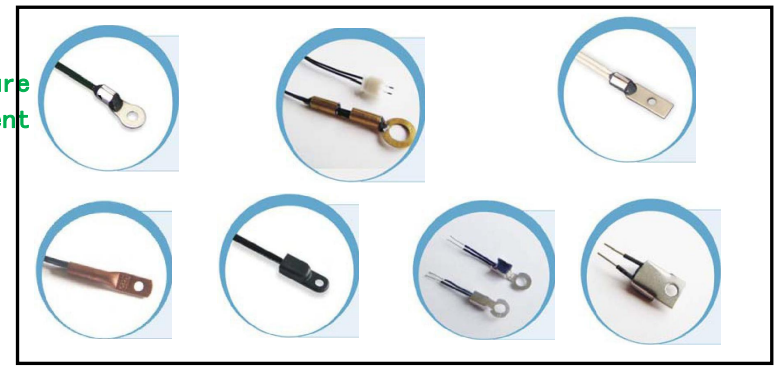

Flange type

Thread type

Surface temperature measurement type

Medical high-precision sensor type
