

BSB XLR

Studio Broadcast Pro Dynamic Mic

BSB XLR is a Broadcast Dynamic Microphone designed for professional sound reinforcement and project studio recording. It maintains a true Hypercardioid polar pattern throughout its frequency range. This insures high gain-before-feedback, maximum isolation from other sound sources, and minimum off-axis tone coloration. It's highly durable and features a headphone volume adjustment switch, and a 3.5mm jack for connecting headphones. You can adjust the recording status at any time as needed.

The Hypercardioid pickup pattern automatically isolates your voice and muffles background noise. A touch mute with light ring make you not afraid of emergency situations during streams, quickly calm down - one touch and it's ready! With its solid construction and high-quality materials used throughout, it is truly built to last.

It's perfect for Podcasting, Recording, Streaming, Vocals, Voice Over, Music, Home Studio and more.

Technical data

Product size	140x105x65mm
Product weight	629g
Material	Engineered Zinc Alloy
Polar Pattern	Hypercardioid
Connector(into mic)	3-pin XLR
Sensitivity	-48.05dB +/- 2dB
Frequency Response	60-15,000Hz
Impedence	600Ohms $\pm$ 30 %
Function control	Headphone volume control/touch mute
Application	Podcasting, Recording, Streaming, Vocals, Voice Over, Music, Home Studio and more

Packing data

Unit packing size	270x200x106mm
Unit packing weight	1098g
Qty/ctn	12pcs
G.W/ctn	14.5kgs
Shipping carton size	56x42x34cm
Loading(20"/40"GP/40"HQ)	4200pcs/8700pcs/9900pcs
