SOMOSTEL This BJ67 2 in 1 PD Fast Charging Cable is a practical silicone charging cable for smartphones and daily use. This charging cable supports 60W Type-C to Type-C fast charging and 27W Type-C to Lightning charging, making this charging cable suitable for different digital devices. This charging cable is crafted with premium skin-friendly silicone material, bringing soft touch and great durability.

This charging cable adopts built-in intelligent smart chip technology. This charging cable can automatically match stable current output to protect your device battery during charging. This charging cable supports charging and data transmission, with transmission speed up to 480Mbps for quick file transfer. The upgraded composite copper core inside this charging cable ensures stable power delivery and reduces power loss.

This charging cable reaches 1500mm in length to satisfy daily and travel usage demands. This charging cable comes in multiple fashion colors including pink, white, blue and orange to meet diverse market preferences.

Compact and versatile, this charging cable is a hot-selling accessory for wholesale distributors worldwide.
