Its compact size allows it to be easily put slipped into laptop bags or backpacks for a business trip or a vacation.Perfect for entertainment on the go!

## **Features:**

### **1. Portable USB-powered monitor**

The S15c needs just one USB cable for both its video signal and power to deliver up to a Full HD resolution. Thanks to the higher bandwidth of USB 3.0, experience fast, fluid images from your connected device that makes having an on-the-go multi-display setup a reality.

## **2. Multiple Connectivity Points**

For users that want another monitor as a dual screen for better productivity, SIBOLAN S15c is compatible with PS4/PS3/PS2/xbox one/xbox360, game consoles, PCs, Macs, laptops, cameras, tablets, smart phones...etc. It offers Headphone output, Mini HDMI input port, Type-C Port.

## **3. Adjustable Color Settings**

Change different settings on the monitor to suit your preferences including the color effect (standard, game, movie, photo, and vivid mode). In the standard mode, users can adjust the hue and saturation of red/blue/green/cyan/yellow/magenta depending on monitor usage.

## **4. A new video gaming experience**

Pack XboxOne or PS4 together with the portable monitor and play your favorite games on a vacation. With no lags guaranteed, the monitor has 1920\*1080 resolution and True Color and offers high quality images and a great gaming experience. With multiple connectivity options, S15c supports HDMI input, perfect for game consoles.

## **5.SIBOLAN S15c Virtually Lag Free Gaming**

Is the lag on your gaming system killing you? SIBOLAN customers expect virtually lag free gaming experiences with quality sound and a unique ability to safely and conveniently game anywhere. We designed the S15c Professional Gaming Monitor with all of these expectations in mind. So stop sacrificing your lives and your standards and start playing smarter.

## **6. Superb photography experience**

Use a second monitor as a bigger screen to review pictures/videos from the camera when outside the studio. Only a monitor that delivers stunning color clarity with 1920\*1080 resolution and True Color can actually display high quality photos and videos.

## **7. Has been used widely in various fields**

Work as second Display for business man; Work with Wifi display dongle for wireless share with your mobile phone; Work with Android TV dongle or box to use as a TV; Work as security and safe monitor; Work as monitor for medical facilities; Work as monitor for director....

Note,additional adapters may be needed to connect your various devices to the monitor.
